

Report on 30MR SG UMID Applications

Yoshi Shibata

(yoshi.shibata@metafrontier.jp)

We Are Here

Activities since the Burbank

- ▶ Submitted intermediate SG report to TC
 - Conducted TC review (Feb.7 – Feb.21)
 - One comment received, and the report was revised as advised

- ▶ Provided initial text on SG report part 2

- ▶ Conducted F2F Meeting in the Hong Kong (Mar. 5)
 - Reported TC review of intermediate SG report
 - Reviewed a proposal on RP 205 Revision AHG
 - Reported current status of SG Report Part 2

- ▶ Postponed publication of relevant article (w/ SMPTE ads) on ABU Technical Review
 - Hopefully to be published on its issue in April

Report on TC Review

- ▶ One comment received during TC review period
 - “Change report titles from ‘intermediate/final’ to ‘part 1 /part 2’ because of their independency

... Now titled as ...

- ▶ “Study Report on UMID Applications Part 1”
 - UMID Application Principles
 - Best Practices
- ▶ “Study Report on UMID Applications Part 2”
 - Additional Technologies Needed to be Standardized

Study Report on UMID Applications Part 2

- ▶ Scope
 - To identify relevant technologies needed to be additionally standardized.
- ▶ Technologies identified so far
 - UMID Resolution Protocol
 - UMID based Program Package Exchange
 - UMID Applications in MXF
- ▶ Initial draft available at:
 - https://kws.smpte.org/apps/org/workgroup/30mr-umid/document.php?document_id=22407

Next Step

- ▶ Study Report Part 2
 - To be submitted to TC chairs before the end of March for its TC review
- ▶ New Activity
 - RP 205 Revision AHG to be hopefully started
